

Face Covering Requirement Reminder

Dear Meredith Community:

Please remember that face coverings are required, regardless of vaccination status, when in indoor common or public areas on the Meredith campus.

Face coverings are required not only under [Meredith's Community Standards](#) but also by the emergency public health proclamation put in place by the City of Raleigh in August. This proclamation requires face coverings in indoor spaces within the city limits. **This requirement was reaffirmed by the City in late November and will remain in effect until the rate of COVID spread is reduced.**

Wearing a face covering and physically distancing as appropriate are two important ways to protect your health during the ongoing pandemic. Thank you for your adherence to this requirement.
