Key Insights

The Meredith Poll conducted a survey of North Carolina registered voters. The online sample--from Dynata--used a quota based on the voter turnout in the 2018 Midterms to get our respondents. After the survey was completed, we **weighted** the survey for **gender**, **party affiliation**, **geographic location**, **race and ethnicity**, and **education** so that our sample most closely resembles North Carolina.

The sample had 819 respondents, giving us a confidence interval of +/-3.3%. The survey was in the field September 20-23, 2022.

2022 ELECTIONS

There is a great deal of enthusiasm for voting in the 2022 Midterm Elections. Over two-thirds of North Carolinians say they plan on voting before or on Election Day. Democrats and Republicans seem equally energized. Over 83 percent of North Carolinians indicate that they are likely to vote with over 85 percent of Democrats and Republicans indicating a strong likelihood of voting.

"The turnout in the 2018 midterm elections was 53 percent," said Poll Director David McLennan. "so we are likely to see an increase in overall voter turnout from that election. The stakes appear very high to respondents in our poll."

One of the issues that is driving the expected high turnout this year is the Supreme Court decision in the Dobbs case, effectively ending the national protection for women to seek abortions. Although over 40 percent of North Carolinians indicated that this decision made them more likely to vote, Democrats were almost twice as likely to state that the Dobbs decision increased their interest in voting (56.1% v. 28%). Women were more likely than men to identify the Dobbs decision as influencing their voting decisions, as well as African American voters and those with higher levels of education.

"Supreme Court decisions often affect voter turnout," said David McLennan. "Brown v. Board of Education increased voter turnout in 1954, for example. The Dobbs decision appears to be influencing voters in North Carolina, especially those that might favor Democratic candidates."

The major federal elections in the state—for the U.S. Senate and the U.S. House of Representatives—are extremely close six weeks from Election Day with less than a percentage point separating Republican Ted Budd and Democrat Cheri Beasley in their race for the senate (**Budd 41.3% v. Beasley 41%**). However, **12.2 percent** of North Carolinians indicate that they have not made up their minds in this race. Although Beasley is running strong among Democrats, she is not running as strongly among Black voters with under 60 percent indicating that they will vote for her at this time. Likewise, Budd is the preference of almost 75 percent of Republicans, but his margin among white voters is down from that of Donald Trump in 2020.

"Although the U.S. Senate race in North Carolina is not getting as much national attention as others like in Pennsylvania and Georgia, it may be one of the tightest races in the country and could determine control of the U.S. Senate," said David McLennan.

Equally tight is the Congressional Generic Ballot in North Carolina with Republican candidates getting the slightest of nods over Democratic candidates (43.6 v. 43%).

"It is interesting that the generic ballot question gets more support from Democratic and Republican voters than their respective U.S. Senate candidates," said David McLennan. "This points to the fact that many voters in the state do not know that much about the two major party candidates running for the Senate."

DIRECTION OF THE COUNTRY AND STATE

As with recent Meredith Polls, North Carolinians do not like the direction of the country or state. Only one-in-five of our respondents thought the country was moving in the right direction. Just over 40 percent of Democrats thought the country was moving in the right direction, but less than 7 percent of Republicans did so. Likewise, Black voters and younger voters were more likely to feel that the country was moving in the right direction.

North Carolina fared better than the nation in terms of voter approval. Just over 40 percent of the respondents thought the state was moving in the right direction and just under half (49.9%) of North Carolinians thought the state was heading in the wrong direction. The same demographic groups that thought the country was moving in the right/wrong direction also thought the state was moving in the respective directions.

"The mood of the North Carolina electorate is decidedly unhappy," said David McLennan. "Normally numbers like these would indicate that the party in power and their candidates would suffer in an election year. However, because of gerrymandered districts in congressional and legislative races, we may not see many seats turning over from one party to another."

APPROVAL OF PRESIDENT, GOVERNOR, AND U.S. SUPREME COURT President Joe Biden's approval rating is underwater by a significant amount (**40.3% approve and 56.1% disapprove**). This almost 16-point gap is much greater than a year ago. The only demographic groups in which Biden's approval is greater than his disapproval are Black voters and those with graduate degrees. The youngest voters (18–24-year-olds) also approve of Biden's performance as president at a higher rate than those who disapprove of his job performance. Republican voters, on the other hand, are extremely critical of Biden's job as president—only 8 percent approve of his job as president.

"Typically, a president whose job approval numbers are so underwater would be a significant drag on his party's candidates in an election year," said David McLennan. "Democratic candidates, however, seem to be defying traditional political gravity, as senate

candidate Cheri Beasley is holding her own against Republican Ted Budd with six weeks left in the campaign."

Governor Roy Cooper continues to be considered the most effective political leader in the state with over 55 percent of North Carolinians approving of his job as governor with just over one-third disapproving. Among partisans, 83.5 percent of Democrats approve of the job Cooper is doing, 30.9 percent of Republicans, and just under half of unaffiliated voters (49.7%).

A plurality of North Carolinians disapprove of the job that the Supreme Court is doing (43.7% approve v. 48.1% disapprove). The negative net approval rating is led by Democrats (29.7% approve) and unaffiliated voters (39.8% approve), while a strong majority of Republican voters (62.5%) approve of the job the Supreme Court is doing.

"It is clear that the current conservative majority on the Court and its recent rulings have affected Democrats and Democrat-leaning unaffiliated voters in North Carolina," states David McLennan. "The Dobbs ruling in particular has made those voters see the Court as a more partisan institution."

POLICY ISSUES: ABORTION

As stated above, the abortion issue seems to be energizing Democratic voters as they head into voting season. The Dobbs decision and the subsequent news coverage of it have caused almost all (over 95%) of the respondents to say they followed these stories a little or a lot. As has been the case with North Carolina public opinion on abortion generally, our respondents were very divided on the Dobbs decision (40.5% approve and 51% disapprove). The partisan divides were even more stark with only 20 percent of Democrats supporting the Dobbs ruling, 68.7% of Republicans, and 40.8% of unaffiliated voters. Other gaps were apparent between men and women (Men 52.7% approval; Women 38.6% approval) and among age groups (18-24 38.6% approval; 76+ 52.7% approval).

Since states are now permitted to pass laws about abortion, we asked about North Carolinians' preferences about what the state should do. Over half (53.2%) favor continuing with the provisions provided by the 1973 Roe v. Wade decision or expanding abortion access further. Just over 10% favor making abortions illegal after 15 weeks. A small percentage (7.3%) want abortion illegal in all circumstances, while almost one-quarter (24.8%) want abortion to be illegal except in the cases of rape, incest, or when the mother's life is endangered.

There are large partisan differences about how the state should move forward on abortion. Almost 80 percent of Democrats favor keeping the current provisions of Roe or expanding access to abortion, while just over one-quarter of Republicans support the same approach.

"Abortion has become a central issue in the fall campaigns, but there is no majority opinion about what North Carolina should do moving forward," said David McLennan. "It is clear

why some political candidates have moved away from the absolutist position of a ban on abortions with no exceptions and why Republican candidates in tight races would not want to talk about the issue at all."

POLICY ISSUES: SAME SEX MARRIAGE LEGISLATION

Until the Dobbs decision and discussions immediately after the announcement of the ruling, the issue of same sex marriage was considered settled by the 2015 Obergefell ruling. However, Democrats in Congress have introduced legislation to protect the right of same sex couples to marry in case the Supreme Court overturns to the 2015 ruling. A majority of North Carolinians (56.3%) favor a federal law protecting this right, while just over one-third of respondents indicated that they did not support such legislation. There are large partisan differences on this legislation with almost 80 percent of Democrats supporting this bill, but only about one-in-three Republicans supporting the protection of same sex marriage through legislation. Some age differences also exist on this question with younger voters more likely than older voters to support this bill.

"It is amazing that in a ten year period, from the passing of Amendment One in North Carolina by a 61-39% vote, that public opinion has completely changed on same sex marriage," said David McLennan. "More North Carolinians now accept this as a normal part of society."

POLICY ISSUES: CONTRACEPTION LEGISLATION

In some of the same post-Dobbs discussions, the issue of overturning the 1963 Griswold Supreme Court decision making access to contraception legal was mentioned. Any attempt to make access to contraception—either judicially or legislatively—would seem to be very unpopular with North Carolinians, as over 82 percent of North Carolinians (with large majorities across all demographic groups) favor maintaining legal access to contraception, while less than 9 percent are not supportive.

POLICY ISSUES: STUDENT LOAN FORGIVENESS

On the issue of President Biden's executive order offering \$10,000 of student loan forgiveness for those who met the eligibility requirements (or \$20,000 for Pell-eligible loan recipients), North Carolinians were split, with a slight majority (51.8%) favoring the reduction and just over 40% being opposed. The largest group of supporters strongly favored President Biden's action (33%), while the large group of those against the action (28.8%) strongly opposed the order. As was predictable, almost 80 percent of Democrats favored the action by President Biden and almost 70 percent of Republicans opposed the order.

SUPPORT FOR DEMOCRACY AND POLITICAL VIOLENCE

The threat to democracy in the United States is real, according to North Carolina voters. Almost two-thirds of our respondents (63.9%) indicate that it is a real threat, while another 19.7% say that democracy is under threat, but that it is not serious. On a related question,

90 percent of North Carolina voters believe that it is important that the country remain a democracy (or committed to democratic principles). In terms of demographic groups, a majority of all groups—including political partisans—recognize the danger and want to protect democracy.

In terms of having a strong leader, even if democracy suffers, only about one-third (36.3%) of respondents would prefer a strong leader over democracy. Of all the demographic groups represented, only Black voters and those 18-24 years old had a majority of their respondents favor a strong leader over democracy.

Political violence used to be considered for fringe groups in the United States. Our survey results, however, suggest that political violence is more mainstream. Over 30 percent of North Carolinians say that, if elected officials cannot protect democracy or Americans, political violence is justified. A similar percentage believe that political violence is an appropriate response for patriots who believe that things have gotten "off track." The most concerning response is to the question about whether force is an appropriate response to a changing American way of life. Almost half of the respondents indicated that it is. Of all the groups represented in the survey, **Republicans are 50% more likely** to indicate a proclivity to resort to violence or force than are Democrats. In fact, a majority of Republicans feel that using force as a response to a changing way of life is an appropriate choice.

Our final question in this series had to do with people's expectations for a civil war in the United States in the future. Over one-third of our respondents (34.9%) expect or consider the possibility of a civil war in the future and only 44% don't consider it a possibility. In the demographic groups, there were no significant differences between Democrats and Republicans on this question, or among racial or ethnic groups. The only group with significantly high expectations for a civil war in the country is those with a high school diploma. Almost half of this group considers a civil war to be a real possibility.

"Although scholars and pundits have discussed the possibility of increased political violence or even a civil war in the United States, these results were troubling," said David McLennan. "It is one thing to have a theoretical discussion about widespread use of political violence or even a civil war, but to hear from so many fellow North Carolinians that they are considering such possibilities is frightening. Our political rhetoric, especially during campaign season, has to be exacerbating this problem."

Policy Issues

Now we are going to ask you about some policy issues that are under consideration in the United States and North Carolina.

The Dobbs Decision

How much have you heard or read about this summer's Supreme Court decision on abortion that overturned the 1973 Roe v. Wade decision?

Response	Number	Percentage
A lot	523	63.9
A little	259	31.6
Nothing at all	22	2.7
Don't know	15	1.8

N = 819

As you may know, the Supreme Court's decision found that the U.S. Constitution does not guarantee a right to abortion and that abortion laws can be set by each state. All in all, do you approve or disapprove of this decision?

Response	Number	Percentage
Strongly approve	195	23.8
Somewhat approve	161	19.7
Somewhat disapprove	125	15.3
Strongly disapprove	292	35.7

Don't know	46	5.5

N = 819

Now that the Supreme Court has overturned the 1973 Roe v. Wade decision and the power to regulate abortion returns to the states, what kind of law would you prefer that North Carolina does in regards to abortion law?

Response	Number	Percentage
Expanding access to abortion services so that there are no restrictions on a woman's right to abortion.	219	26.7
Maintain the spirit of Roe. v. Wade so that a woman can access abortion services freely up until 22 weeks, but that there are restrictions after that.	217	26.5
Make access to abortion very restricted - making it illegal after 15 weeks.	85	10.4
Severely limit the right to abortions so that abortions would only be allowed if the woman's life is endangered by her pregnancy or the pregnancy is caused by rape or incest.	203	24.8
Make abortion in all cases illegal.	60	7.3
Don't know	35	4.3

N = 819

Law to Protect Same Sex Marriage

Congress is currently considering a federal law to protect the right of same sex couples to marry. Do you approve or disapprove of such a law?

Response	Number	Percentage
Strongly approve	314	38.3
Somewhat approve	147	18
Somewhat disapprove	102	12.5
Strongly disapprove	193	23.6
Don't know	63	7.7

N = 819

Law to Protect Legal Contraception

Congress is considering a federal law to protect the right of people to purchase and use contraception. Do you approve or disapprove of such a law?

Response	Number	Percentage
Strongly approve	513	62.6
Somewhat approve	160	19.5
Somewhat disapprove	36	4.4
Strongly disapprove	39	4.8
Don't know	71	8.7

N = 819

Student Loan Reduction

Recently President Biden made an executive order eliminating \$10,000 of student loan debt for persons earning less than \$150,000 or \$20,000 of student loan debt for those who received Pell grants. Do you approve or disapprove of this action?

Response	Number	Percentage
Strongly approve	262	32
Somewhat approve	162	19.8
Somewhat disapprove	104	12.7

Strongly disapprove	236	28.8
Don't know	55	6.7

N = 819

Democracy in the United States

When thinking about democracy in the United States these days, which of the following statements is closest to your view?

Response	Number	Percentage
There is a serious threat to our democracy.	523	63.9
There may be a threat to our democracy, but it is not serious.	161	19.7
There is no threat to our democracy	71	8.7
Don't know	64	7.8

N = 819

How important do you think it is for the United States to remain a democracy?

Response	Number	Percentage
Very important	616	75.2
Somewhat important	121	14.8
Somewhat unimportant	23	2.8
Very unimportant	15	1.8

Approval Ratings of Political Leaders

Now we are going to ask you some questions about specific political leaders and the upcoming midterm elections.

Biden Approval

Do you approve or disapprove of the way Joe Biden is handling his job as president?

Response	Number	Percentage
Strongly approve	136	16.6
Approve	194	23.7
Disapprove	128	15.6
Strongly disapprove	332	40.5
Don't know	29	3.5

N= 819

Cooper Approval

Do you approve or disapprove of the way Roy Cooper is handling his job as governor?

Response	Number	Percentage
Strongly approve	167	20.4
Approve	286	34.9
Disapprove	150	18.3
Strongly disapprove	133	16.2
Don't know	83	10.1

Voting and the 2022 Elections Likelihood of Voting

Are you planning to vote this fall in the midterm elections?

Response	Number	Percentage
Definitely not	32	3.9
Probably not	56	6.8
Probably yes	150	18.3
Definitely yes	539	65.8
Don't know	42	5.1

N = 819

Impact of Dobbs Decision on Likelihood of Voting

How has the Supreme Court decision overturning Roe v. Wade and returning the power to regulate to the states affected your decision to vote in this year's elections?

Response	Number	Percentage
Made me more motivated to vote	322	44.1
Made me less motivated to vote	15	2.1
Has had no impact on my motivation to vote	362	49.5
Don't know	32	4.4

U.S. Senate Race

If the election was held today, which candidate for the US Senate from North Carolina would you vote for?

Response	Number	Percentage
Democrat Cheri Beasley	300	41
Republican Ted Budd	302	41.3
Green Party Candidate Matthew Hoh	11	1.5
Libertarian Shannon Bray	11	1.5
Someone else	18	2.5
Don't know	89	12.2

What North Carolina Should Do

Now that the Supreme Court has overturned the 1973 Roe v. Wade decision and the power to regulate abortion returns to the states, what kind of law would you prefer that North Carolina does in regards to abortion law?

	Expandin g access to abortion services so that there are no restrictio ns on a woman's right to abortion.	Maintain the spirit of Roe. v. Wade so that a woman can access abortion services freely up until 22 weeks, but that there are restrictions after that.	Make access to abortion very restricted - making it illegal after 15 weeks.	Severely limit the right to abortions so that abortions would only be allowed if the woman's life is endangered by her pregnancy or the pregnancy is caused by rape or incest.	Make abortio n in all cases illegal	Don't know

Methodological Information

Mode: Online

Population: N.C. Registered Voters 18+

Dates in the field: September 20-23, 2022

Sample Size: 819

Credibility Interval: +/- 3.3%

Weighting Variables (NC): Gender, Education, Location (Urban, Rural, and Suburban counties). Political Party, and Race and Ethnicity.

Procedures: The Meredith Poll used an online sample provided by Dynata. Participants were recruited into the sample by Dynata and received small amounts of compensation in exchange for their opinions. The survey was not an open-link, posted on social media, but rather was by direct invitation to a very large national pool of people who agree to take online surveys. More information about the Dynata panels and quality tests are available here. Quotas on demographic variables such as gender, race, etc. were applied prior to online survey commencement.

Online interviews were included in the final dataset if respondents spent a minimum length of time on the interview and particular sections, and if a respondent progressed through the entire survey. Respondents were recruited to the survey with a generic description about the fall elections.

Credibility Interval

Unlike a traditional random digit-dial telephone survey, online surveys do not have traditional margins of error. Nonprobability quota samples like these do not adhere to assumptions of random selection. To account for uncertainty inherent in any sample-based research design, we provide a credibility interval. More information about this technique can be found here. The credibility interval was calculated by inflating traditional confidence intervals by a design effect calculated using the squared sum of weights. For this North Carolina sample, this means: (1.0 * 2.3= 3.3). We round these values up for presentation of results. As with all surveys, Total survey error often exceeds sampling error.

Weighting Information

Weights were generated in Qualtrics using a technique known as iterative proportional fitting, also known as raking. The weight variable was calculated based on the variables in the table below.

The demographic information was obtained through self-report--respondents answered closed ended questions.

Model—we used voter turnout from 2018 estimates for weighting.

Age	
18-25	7.2%
26-40	15.2%
41-56	15%
57-75	23%
76+	6.7%

Gender	
Female	51%
Male	49%
Race and Ethnicity	

White	67%
Black	20%
Other	13%
Educational Attainment	
Less than a bachelor's degree	70%
Bachelor's degree or higher	30%
Location—c ounty of residence	
Rural	39%

Urban	25%
Suburban	36%
Party Affiliation	
Democrat	34%
Republican	36%
Unaffiliated	29%
Other	.7%

Note: We use the NC Rural Center's categorization of NC counties. The urban counties are: Durham, Forsyth, Guilford, Mecklenburg, New Hanover, and Wake. The suburban counties are: Alamance, Buncombe, Cabarrus, Catawba, Cleveland, Cumberland, Davidson, Gaston, Iredell, Henderson, Orange, Pitt, Rowan, and Union. The remaining counties are rural.
